Enhance Your Offering with Alarm.com and LiftMaster®

Alarm.com is the exclusive interactive security and home automation platform that is fully integrated with LiftMaster brand garage door openers. LiftMaster's state-of-the-art garage door openers, access control systems, and unique accessories will fit any lifestyle, providing your customers with the latest innovations in safety, quality, and security.

Integration of LiftMaster's myQ® technology with Alarm.com's superior security platform leads to a complete and convenient home automation solution to help better manage access to any property.

Using LiftMaster's patented two-way communication technology, myQ, you can easily upgrade your customer's LiftMaster, Chamberlain or Craftsman opener as long as it was manufactured after 1998, so that it is completely connected with their entire Alarm.com ecosystem.

Alarm.com & LiftMaster Integrated Solution Highlights:

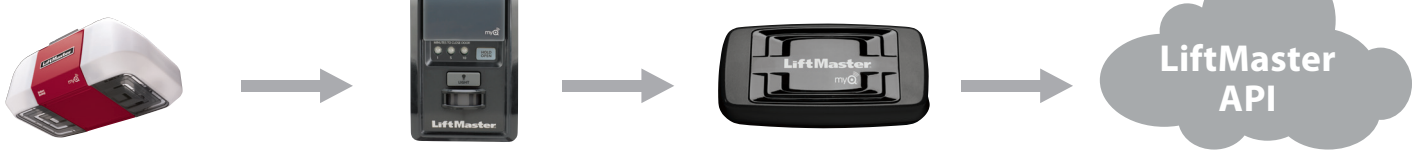
Check to see if garage doors are closed

Remotely open and close garage doors

Automatically have garage doors close when system is armed

Receive alerts if garage doors are left open

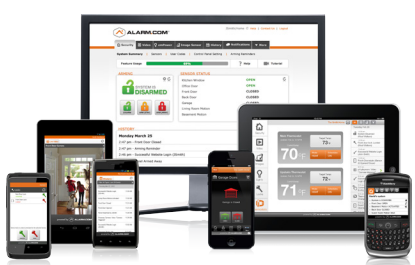
How it Works



Garage Door Opener

Door Control with myQ Connectivity
(in garage, wirelessly connects to gateway)

LiftMaster myQ Gateway
(in home, connects to internet or router)



Remote Status & Control

Real-Time Alerts
